## Mainstream germline test for inherited cancer: Ovarian, Breast and Prostate

PATIENT DETAILS	Clinical details Please state in this box the full clinical details							
SURNAME	FORENAME	that meet the eligibility criteria overleaf:  DNA will be stored and not tested unless these details are provided.						
Date of birth	NHS number							
Sex	Hospital number / Genetics number							
Consultant	Hospital / Department							
	NHS							
Additional copies to	Private (address for invoicing):							
Patient post code	GP name GP address							
		EDTA blood only						
Address to email final report: Please use an NHS digital accredited secure e-mail address	s generic denartment e-mail addresses are preferred	Date of collection						
The control of the co	, generio departironi e mai addresses die procinca	Collected by						
Please pick <u>one</u> of the followin	g tests (tick in the appropriate box):							
R207 Inherited ovarian cancer (without breast cancer). R207 genes tested: BRCA1, BRCA2, BRIP1, MLH1, MSH2, MSH6, PALB2, and truncating variants in RAD51C and RAD51D. See overleaf for testing criteria.								
R208 Inherited breast cancer and	d ovarian cancer. R208 genes tested: <i>BRCA1, BRCA2, PALB2</i> , and truncating variants in d <i>RAD51D</i> . See overleaf for testing criteria.							
R430 Inherited prostate cancer. F	Inherited assets as a RANA asset at ARANA BROAM							
R444 Breast cancer and metasta eligible for NICE approved	Breast cancer and metastatic castration-resistant prostate cancer natients not meeting the R208/R430 criteria AND							
Referrals will only be accepted from one of the following:  Consultant Clinical Geneticist / Registered Genetics Counsellor								
Consultant Clinical Geneticist / Registered Genetics Counsellor  OR Consultant Oncologist (breast/gynaeoncology/urology)								
Consultant Surgeon (breast/gynaeoncology/urology)								
Breast Physician  Clinical Nurse Specialist (breast/gynaeoncology/urology)								
Name of clinician consenting the patient:								
Please see next page for NHS England testing criteria. If the patient does not fulfil the testing criteria, the case should be discussed with Clinical Genetics (see link below).								
https://www.uhs.nhs.uk/ourservices/genetics/genetics.aspx								
In submitting this sample the clinician confirms that consent has been obtained for testing and storage.								

Anonymised stored samples may be used for quality control procedures including validation of new genetic tests.

## R208 - Relevant testing criteria for clinical indication R208: Inherited breast cancer and ovarian cancer

- 1. Living affected individual (proband) with breast (including high grade DCIS) or high grade ovarian cancer where the individual (with or without family history) meets at least one of the criteria. The proband has:
- a. Breast cancer (age < 40 years); OR
- b. Bilateral breast cancer (age < 60 years); OR
- c. Triple-negative breast cancer (age < 60 years); OR
- d. Assigned male at birth and affected with breast cancer (any age); OR
- e. Breast cancer (age <45 years) and a first-degree relative with breast cancer (age <45 years); OR
- f. Combined pathology-
